

EYH Ambassador Program

Who is an EYH Ambassador?

An EYH Ambassador attends high school in Santa Cruz County High School and wants to share her interest in science, or math with others; to learn about science/math intensive careers through activities designed especially for her; and to gain valuable leadership skills.

- She encourages her friends to attend the Annual EYH Conference.
- She shares the EYH website (<http://eyh.ucsc.edu>) with teachers.
- She participates in hands-on activities on the UCSC Campus and in the Community.

This girl sounds like me!

I am qualified to be an EYH Ambassador if:

- I am in 9th – 12th grade in Santa Cruz County.
- I am interested in expanding my horizons in science and mathematics.

Since I am qualified, I need to ...

1. Complete and submit the following application.
2. Ask a teacher or mentor who can comment on my leadership ability and interest in math and science to complete the recommendation form.

Note: The recommendation can be sent separately or given to you to include with your application materials.

Spaces are limited. Applications are accepted on a first come, first served basis.

1. Have you attended an Expanding Your Horizons Conference at UCSC? If so, when? Please describe your favorite part(s) of the Conference.

2. Please provide a list of your leadership experience (e.g. positions like class officer, club leader, or team captain):

3. Please provide a list of the math or science courses you have taken in the past three years:

4. On a separate page, please briefly describe (one to two paragraphs) why you would like to participate in the EYH Ambassador Program.

Applications are accepted on a first come, first served basis. Mail or FAX your application to:
